

11/3/2022
UNAPPROVED MINUTES

Present: Angie Berry, Dean Dryer, Dave Price, Justine Faylor, Pat Springate and Thomas Lechowicz

Minutes from October were read and approved all in favor.

Dave Tallon was called and we reviewed what washouts needed to be done. Decision was to have DNR look at and see what areas we can get help with for repairs. Also talk to County to see if there is anything they can help us with.

Decision was made to have Luke Morris clear stumps west of N Conway approximately 18 stumps. Justine to inform him. We only put in for \$200.00 for reimbursement so whatever we have Luke do we would have to pay for.

Dave to get a map of Seasonal roads to Justine for future use.

Moosejaw Safari – Willing to take donations for beans, and veggies, but not the meat items, if someone is interested in giving a donation, they can donate the money and we will use it for supplies so we can get what we need.

Maps almost done confirming ads. Possibly a few more business to do discounts for membership cards.

Blue Ford has been driven now, it needs a thermostat should be done end of following week.

There will be a new house at the end of Bigfoot trail and they said they will be blowing the rd, groomer will be able to turn around there.

Adjourned 8:36pm
